PDX OWASP Training Day 2021
October 13th, 2021

OVERVIEW

OWASP is an open source non-profit organization focused on improving the security of software. With this event, we (the Portland OWASP chapter) are trying to bring quality and very affordable security training to the general public in the greater Portland area. We have volunteer instructors offering four courses, each one-half day in length, on different topics for people to choose from. Our hope is to make this rare training available to folks that would not otherwise have access to it. More information will be posted to the OWASP PDX site in the coming weeks.

MORE ABOUT OWASP

The Open Web Application Security Project (OWASP) is a 501(c)(3) worldwide not-for-profit charitable organization focused on improving the security of software. Our mission is to make software security visible, so that individuals and organizations are able to make informed decisions. OWASP is in a unique position to provide impartial, practical information about application security to individuals, corporations, universities, government agencies and other organizations worldwide. Operating as a community of like-minded professionals, OWASP issues software tools and knowledge-based documentation on application security.

Everyone is free to participate in OWASP and all of our materials are available under a free and open software license. For more information, see the About OWASP page or the OWASP Blog. OWASP *does not endorse or recommend commercial products or services*, allowing our community to remain vendor neutral with the collective wisdom of the best minds in software security worldwide.
